

McAfee MVISION

Endpoint Strategy Evolved

Michiel de Lepper | Channel Technical Manager

→ What is MVISION

→ Positioning

→ How to get MVISION

MVISION ePO

A dramatically simple cloud-based SaaS management service.

MVISION Endpoint

Advanced augmented defense for Windows 10 with an unified management experience

MVISION Mobile

Centrally manage and defend IOS and Android “just like any other device”.

MVISION

Multi Vendor

InSights & Intelligence

Open eNvironments

A new strategic mission, a new portfolio family

MVISION EDR

Powerful threat detection and response - simplified

MVISION Cloud

Protect data where it increasingly lives—in the cloud

MVISION at MPOWER

**SECURITY
OPERATIONS**

DEVICE

CLOUD

Expanding on SOC & Cloud

"I want a zero-effort SaaS management service and don't want to worry about handling infrastructure updates."

MVISION ePO SaaS Service

Multi-tenant, globally scaled,
maintained by McAfee

Have a browser? Then you're ready
to go.

MVISION ePO

MVISION Endpoint

MVISION Mobile

“I want a zero-effort SaaS management service and don't want to worry about handling infrastructure updates.”

ePO

High Overhead

High Integration

EDR Capable

On Premise

AWS ePO

Medium Overhead

High Integration

EDR Capable

PaaS

MVISION ePO

Low Overhead

*Limited Integration**

EDR Capable in 2019

SaaS

Multi-tenant, globally scaled SaaS, maintained by McAfee

MVISION
ENDPOINT

MVISION ePO

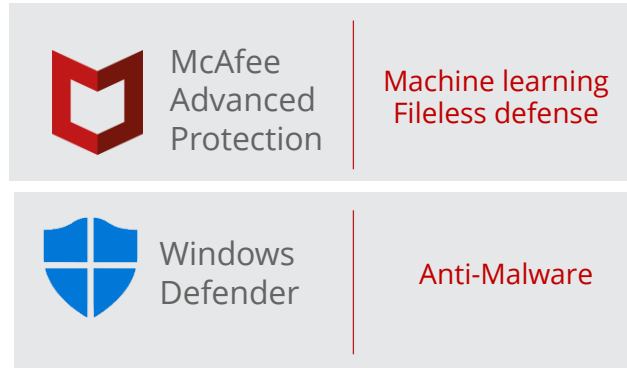

MVISION Endpoint

MVISION Mobile

“I need to fortify my Microsoft defenses, but I don’t want additional security consoles.”

Requires Windows 10 Version 1709 or newer, or Windows Server 2016 or newer

Collective defense & consistent control of McAfee and Windows native security controls

McAfee MVISION Endpoint

Always Up-to-date Security

Regular Automatic updates

Single Threat Protection Policy

Optimized, Rationalized and Unified

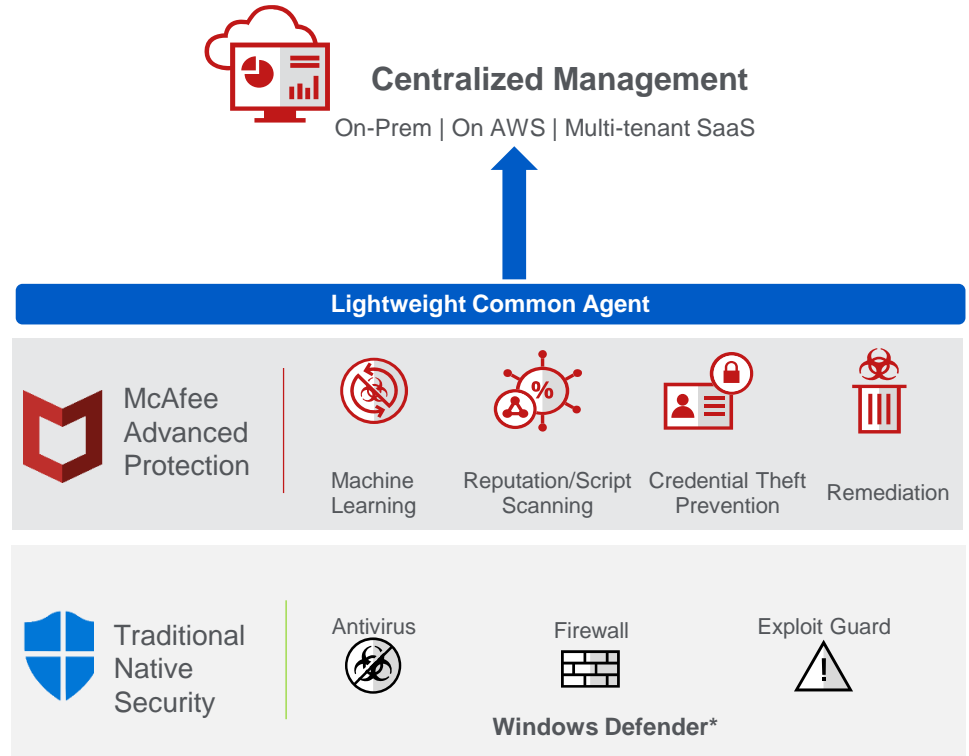

Simplified UX

Fewer Clicks, Outcome visibility

Lightweight security

Up to 75% Smaller footprint

Reduced Complexity = Reduced TCO

MVISION
MOBILE

MVISION ePO

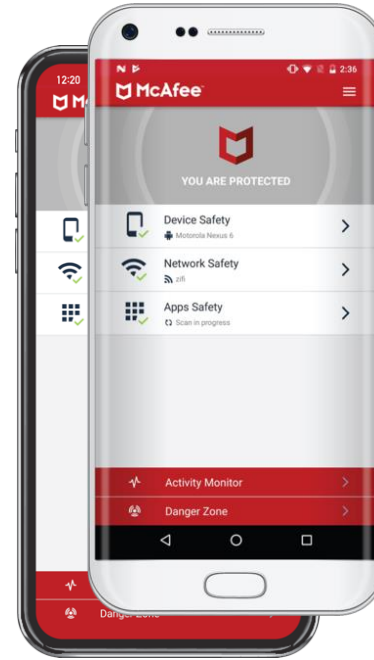

MVISION Endpoint

MVISION Mobile

“I want to centrally protect the mobile assets in my environment just like any other device.”

iOS and Android Defense

MVISION EDR

MVISION EDR

Powerful threat detection,
investigation and response -
simplified

MVISION Cloud

Protect data where it increasingly
lives—in the cloud

McAfee Active Response

Endpoint visibility and
data collection
Suspicious behavior
detection
Fast search
Robust response

Enhancements

Extended data
collection and retention
Simplified, cloud centric
architecture
MITRE ATT&CK™
framework mapping

McAfee Investigator

Dynamic investigation
guides
Automated Analysis
Enterprise-wide data
collection

MVISION EDR

Powerful threat
detection, investigation,
and response - simplified

Detect & act on advanced threats faster to stop breaches
and improve your security posture

Address your cyber-skills gap with dynamic investigation
guides that up-level junior analysts and improve senior
analyst efficiency

Respond with speed using single-click containment and
ecosystem integration that improves workflows and efficiency

MVISION
CLOUD

Skyhigh Networks becomes MVISION Cloud

MVISION EDR

Transform incident responders into human-machine teams for faster with better precision.

MVISION Cloud

Secure Enterprise data in the Cloud and Protect from Threats

“I need a single place to protect all my data in every cloud.”

Data and application security across SaaS, IaaS and PaaS

Positioning

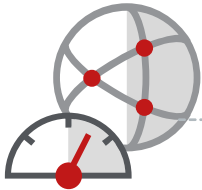

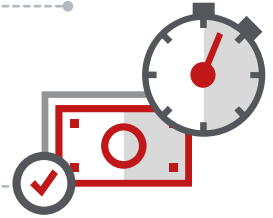

The Benefits of Native Security

Why adoption is increasing

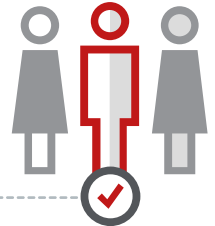

Signature-based defenses within the Operating System offload the need for a solution to protect against known threats

As part of an existing investment, **time and money can be saved** by leveraging them

The **impact to networks and bandwidth** can be reduced with less frequent updates

Minimal impact to users and productivity

A Way to Effectively Leverage Native Security is Missing

No converged management for native and advanced defenses

Multiple products, vendors, management tools and software bloat

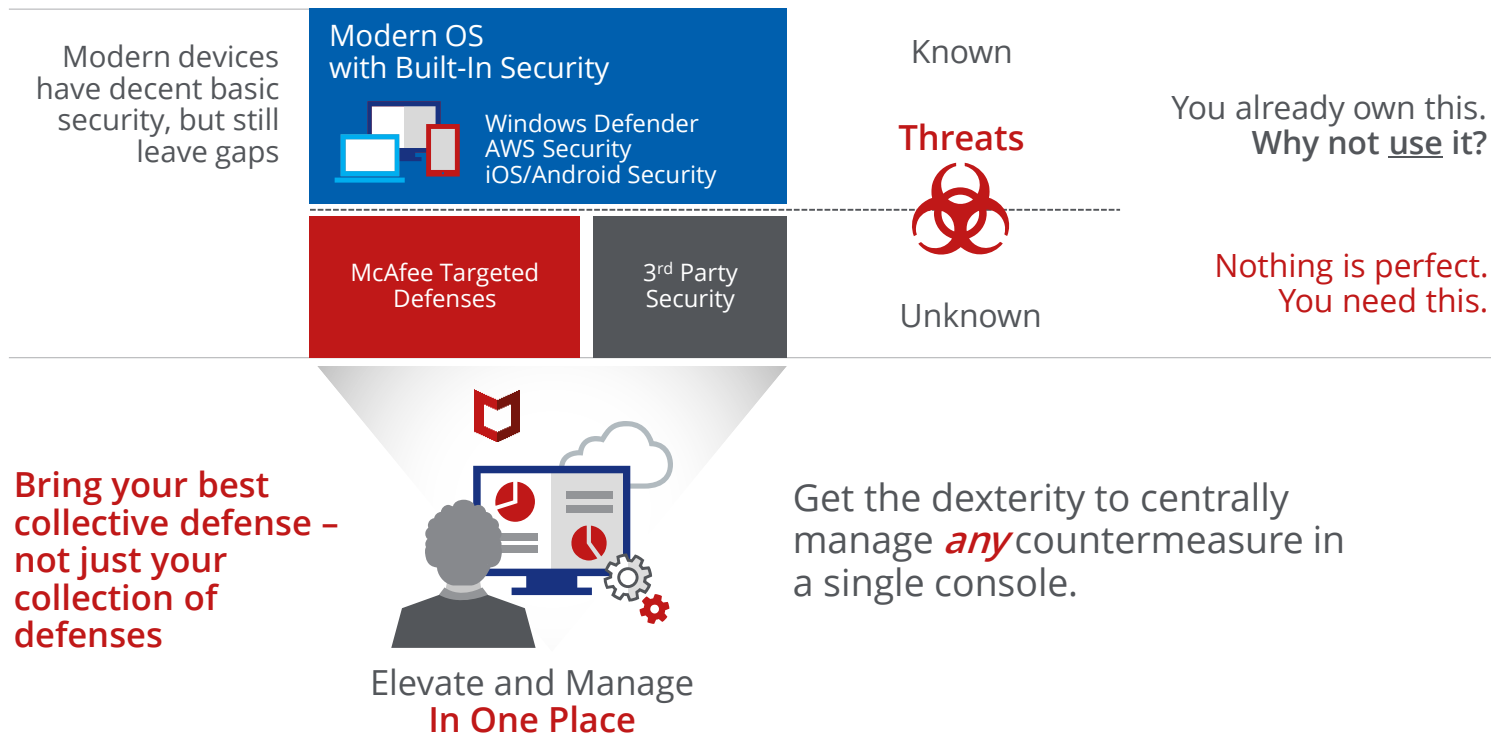

Limited to **no options for integrating** third parties

Manual maintenance and patching

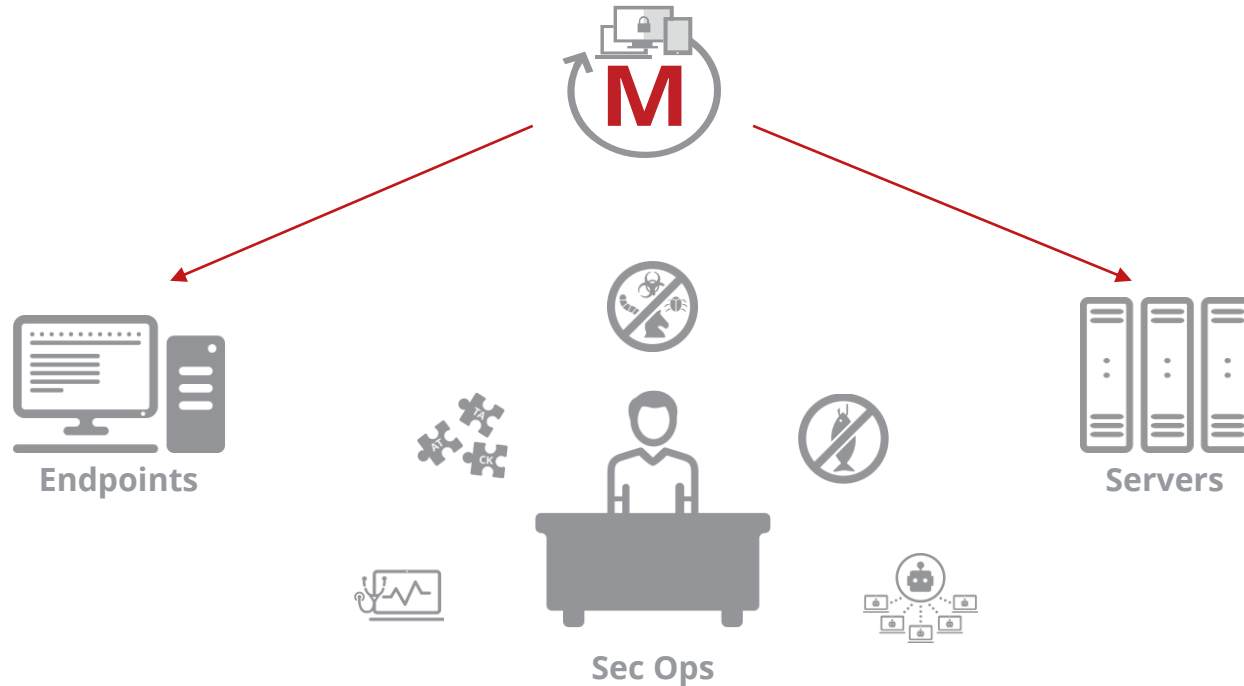

How many hours a week would you save with consolidated management?

Get the Dexterity you need to Leverage Native Security

How we talk about Endpoint security

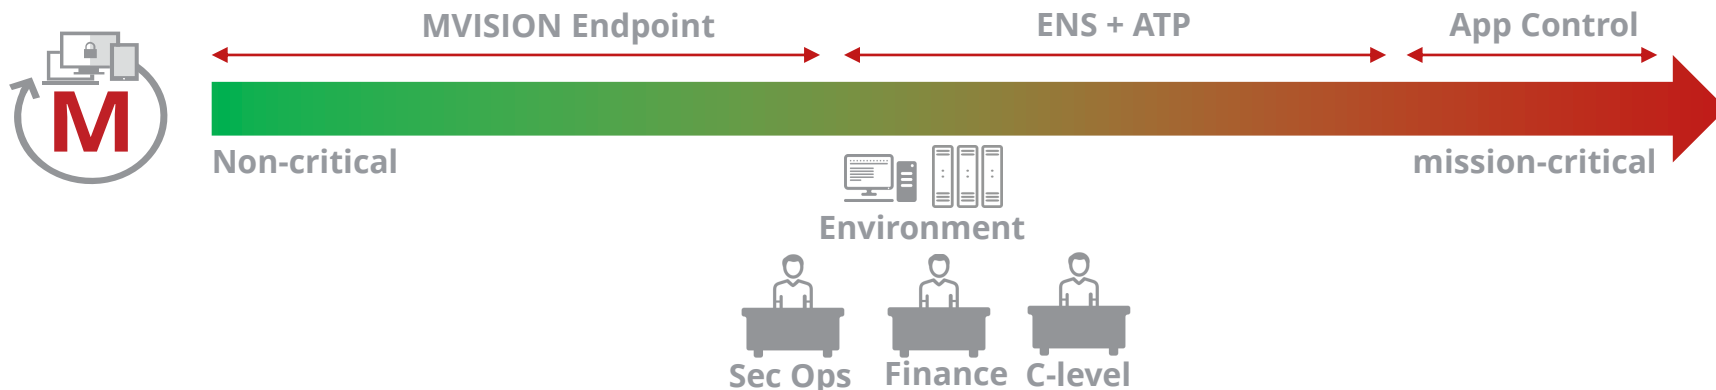

And who we talk to

How we should talk about Endpoint security

And who we should talk to

Security = Risk Management

How to get MVISION

MVISION Standard

SaaS management or On-Premise of advanced threat protection for your endpoints

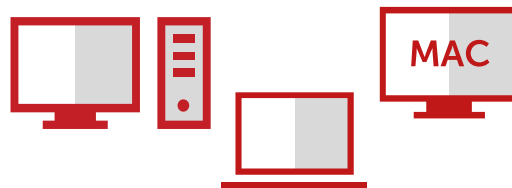

MVISION ePO

SaaS Management
Ready to deploy in minutes

ePO On-Premise

Deploy and use in your own data center

MVISION Endpoint

Windows 10. Manage Windows
Defender + McAfee Advanced
Protection

Endpoint Security (ENS)

Windows, MacOS, Linux.
Includes Advanced Protection (ATP)

MVISION Plus

Flexibility to manage where you want (on-prem, cloud, SaaS).
Flexibility to deploy protection you need across all of your devices

MVISION ePO

SaaS Management
Ready to deploy in minutes

ePO in Cloud

Automated deployment of private ePO
in your AWS cloud data center

ePO On-Premise

Deploy and use in your own data center

Open Ecosystem

Data Exchange Layer (DXL)
Threat Intelligence Exchange (TIE)
Strategic Innovation Alliance (SIA)

MVISION Endpoint

Windows 10. Manage Windows Defender +
McAfee Advanced Protection

Endpoint Security (ENS)

Windows, MacOS, Linux.
Includes Advanced Protection (ATP)

MVISION Mobile Basic

Android & iOS
Threat visibility & security orchestration

Application Control

For Desktops and IoT Devices
Lockdown devices to only trusted whitelisted apps
